FOREWORD

WITH the extensive development in modern building activities the application of light is an important factor. The illumination of commercial interiors has, as a result been given careful study. Information pertaining to good lighting requirements can be obtained in planning any installation.

Illustrated in this book are *enclosing globes* designed for commercial installations, to include office buildings, schools, stores, hotels, department stores, hospitals, churches and other public buildings.

The globes listed portray both the Standard and "Moderne" type of design. The contour in either case is appealing to the eye and is so designed to produce a maximum of light output, with either Pearltone or Opolo glass to diffuse the light.

"PEARLTONE" is a three layer glass of scientific construction. The inner and outer layers are crystal and the middle Opal glass. The crystal on the inside and outside serves to case the Opal, adds to the strength of the finished unit and has reflection and refraction qualities which aid in distributing the light. The Opal layer is very thin, sufficient to diffuse and not greatly absorb the light.

The light produced through this filter does not glare, and has an even diffusion. Pearltone Units carry these qualities and are offered for your use.

"OPOLO" is a commercial lighting glass of a single layer, of Opal or white glass—developed to meet general commercial needs. Constructed to produce a maximum light, with an even distribution.

This catalogue lists commercial units. In addition our line includes:

Residential Lighting Glassware

Colonial Cut Shades

Special Items for the Fixture and Lamp Manufacturer

Private Mould Work

Novelties

Advertising Specialties

Blown and Pressed Ware

Your request will bring literature on standard items and your inquiries on special work will receive our careful attention.

GILLINDER BROTHERS, INC.

TERMS: To firms having satisfactory credit rating—1%—15 days, Net 30 days from date of invoice. To avoid delay where credit relations have not been established orders should be accompanied by check in full or a deposit of 25% of the total value of merchandise ordered. In the latter case goods will go forward Express C.O.D. or Draft to Bill of Lading for the balance due.

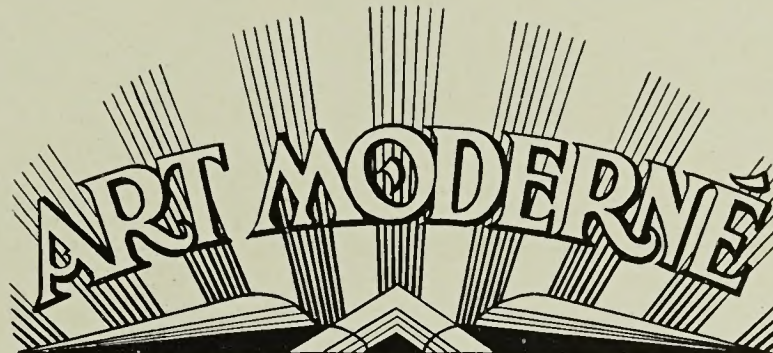

To establish credit, references should be furnished.

All goods are sold f.o.b. Port Jervis, New York.

Less than Standard packages take list prices.

Goods are well packed and no allowances are made for breakage. Claims should be made to transportation companies.
